

HKUMed Teaching and Learning Expo: Harnessing AI to Revolutionize Health Sciences Education

**Nov 27-28
2025**

Dr Theresa LI 李德麗醫生

Cluster Chief Executive (Hong Kong West Cluster), Hospital Authority

醫院管理局港島西聯網總監

Dr Theresa LI is the Cluster Chief Executive (Hong Kong West) and Hospital Chief Executive (Queen Mary Hospital and Tsan Yuk Hospital). Comprising a catchment population of more than half a million, Dr LI spearheads vision and expertise towards the development and planning of hospital services in the Cluster. Amongst the hospitals (seven altogether in the Cluster) is the Queen Mary Hospital (QMH) which is renowned as not only the regional acute hospital and the teaching hospital of Li Ka Shing Faculty of Medicine of the University of Hong Kong, but also a territory-wide tertiary and quaternary referral centre for complex and advanced services, including but not limited to heart, lung, liver and bone marrow transplants, neonatal intensive care, paediatric surgery, oral maxillo-facial surgery, burns and reconstructive surgery.

Over the years, under Dr LI's insightful leadership, new initiatives have been rolled out to the benefit of Hong Kong patients. These include around-the-clock Primary PCI Service for STEMI patients in Hong Kong Island on 24-7-365 basis, formation of the Hong Kong Island Vascular Network, provision of Intra-arterial Thrombectomy service, pilot implementation of CAR-T cell therapy service, as well as enhancement of genetics services and colonoscopy screening for hereditary colorectal cancer patients and families. Lately, as the Partnering Centre of the Hong Kong Genome Project, QMH has been actively collaborating with HKU LKS Faculty of Medicine and Hong Kong Genome Institute for future genetic and genomic development.

Prior to working in QMH, Dr LI has spent almost five years in Hospital Authority Head Office as the Head of Human Resources driving and helping to delineate a wide range of human resources policies and guidelines, develop HR apps to enhance easy access to HR functions and pioneered locum employment in HA. And, before embarking onto management tasks, Dr LI is both a specialist in Anaesthesiology and a specialist in Pain Medicine who started off her clinical journey by working in Queen Elizabeth Hospital, soon after graduating from the University of New South Wales, Australia.

李德麗醫生是麻醉科專科醫生，現任醫院管理局港島西醫院聯網總監暨瑪麗醫院及贊育醫院行政總監，負責規劃香港島中西南區的醫院及門診服務，包括瑪麗醫院的重建工程。

李醫生擁有豐富的機構管理行政及醫院服務規劃經驗。出任現職前，她曾擔任醫院管理局人力資源主管，並先後出任沙田醫院及白普理寧養中心醫院行政總監和九龍中醫院聯網總行政經理（策略、規劃及服務轉型）。
